CONSTRUCTION NOTICE

Crusher Hole Day-Use Area Improvements

Please note that renovations to the Crusher Hole Day-Use Area Improvements began in January 2025 and will continue through the summer of 2026. Renovations will include construction of a group shelter including dedicated parking, picnic sites along the river, installation of a vault toilet, additional trailer parking, upgraded accessible parking at the ramp, and trail connections and revegetation throughout the day-use area.

The construction area will be fenced and won't disrupt current day-use operation. Access to the boat ramp and all existing parking will remain open throughout construction.

If you have further questions, please contact Chris Smith, Northwest Region Manager, (505) 490-5751.

Thank you for your cooperation.
