Agency Mission & Description

ENERGY, MINERALS, AND NATURAL RESOURCES DEPARTMENT

Vision: A New Mexico where individuals, agencies and organizations work collaboratively on energy and natural resource management to ensure a sustainable environmental and economic future.

Mission: To position New Mexico as a national leader in the energy and natural resources areas for which the Department is responsible.

Department Goals:

1. To make our state a leader in developing reliable supplies of energy, and energy efficient technologies and practices, with a balanced approach towards conserving our renewable and non-renewable resources,
2. To protect the environment and ensure responsible reclamation of land and resources affected by mineral extraction,
3. To be effective in leading our state in growing healthy, sustainable forests and managing them for a variety of users and ecologically sound uses, and
4. To improve the state park system into a nationwide leader that protects New Mexico's natural, cultural and recreational resources for posterity and contributes to a sustainable economy statewide.

Purpose of Position

Under supervision, perform manual labor necessary to perform a variety of maintenance and landscaping tasks through such activities as maintaining campgrounds, restroom facilities and buildings, maintaining and operating vehicles and landscaping equipment, and assisting park visitors.

Educational / Experience

Education level of eighth grade or higher

Employment Requirements

Some positions may require a valid NM Driver's license. Ability to work independently and as a team with other employees. Must be willing to work weekends and holidays.

Working Environment

Must be willing to work outside during all types of weather.
